

BSI Training Course

**ISO 23412:2020 Implementation Training Course (2 Days) -
First International Recognized Standard for Indirect, Temperature-Controlled Refrigerated
Delivery Services — Land Transport of Parcels with Intermediate Transfer**

Essential information about the course:

In response to the increasing demand of courier services focusing on small quantity business-to-business individual packages containing chilled and/or frozen goods for direct delivery to the customer, the first international publicly available specification related to chilled and/or frozen goods delivery services commenced by BSI, i.e. PAS 1018: 2017, was upgraded to ISO 23412: 2020 in May 2020.

It aims to be a guideline for refrigerated and delivery service providers to support consumer safety through a total control of the cold chain while the refrigerated parcel is in possession of the refrigerated delivery service provider. Food is one item that may be delivered, but not the only type of good delivered using this method.

Upon completion of this course you will be able to:

- Identify key benefits to your organization from implementing an effective ISO 23412
- Develop a plan and determine the resources required for the implementation
- Apply good practice to the implementation using proven tools and techniques

Public Training Schedule	Tutor	Price Per Delegate
Oct 05-06, 2023	Mr. Ken Chung	(i) RTTP Subsidy: HKD 4730 -> HKD 1577* or (ii) Member with no RTTP Subsidy: HKD 4730 -> HKD 4020

Tutor Profile

Mr. Ken Chung

Mr. Ken Chung is the Chairman of the Chamber of Hong Kong Logistics Industry (CHKLI), Chartered Fellow of the Chartered Institute of Logistics & Transport (CILTHK), Honorary Advisor of the HK Sea Transport & Logistics Association (HKSTLA), Honorary Advisor of the HK Logistics eCommerce Association, and Member of the Institute of Purchasing & Supply of Hong Kong (IPSHK).

Ken has got more than 25 years of experiences in re-engineering global 500 companies' supply chain and food cold chain management. In the recent few years, Ken has successfully provided international cold chain standard (ISO23412 & formerly PAS1018) training to numerous branded logistics and food companies' management & operation staff, such as SF EXPRESS, KERRY LOGISTICS NETWORK, DHL, UNILEVER, TSIT WING FOOD GROUP, etc.

Ken is the Vice Director of the Guangdong Province Cold Chain Standard Engineering & Technical Research Centre (廣東省冷鏈標準化工程技術研究中心), and GD Province Logistics Cold Chain Qualification Framework (QF) Standard Expert of 廣東省物流標準化技術委員會. Due to his professionalism in the industry, Ken had been appointed by the HKSAR Government to provide professional advice for many years, such as Council member of the Hong Kong Logistics Development Council, Certification Technical Advisor of the HK Quality Assurance Agency Certification (HKQAA), director of the Logistics & Supply Chain Management R&D Centre (LSCM), member of the Education Bureau Applied Learning Development Committee, member of the HK Customs Sea Cargo Liaison Group.

Ken is also a visiting lecturer in HK Polytech University, HK Chinese University, and numerous educational institutions. Ken was awarded a Master degree (Global Logistics Management) from Royal Melbourne Institute of Technology (RMIT), Australia.
