## **The Institute of Purchasing & Supply of Hong Kong (IPSHK) – CLP Low Carbon Energy Education Centre Visit**

**Want to have an interactive experience to understand importance of low carbon energy sources in addressing environmental challenges?**

You are welcome to enrol this visit to CLP Low Carbon Energy Education Centre, located in The City University of Hong Kong.

There are five themed zones at the centre that present an interactive learning experience covering the generation principles, applications, advantages, and limitations of different low carbon energy sources as well as the future development potential.

The centre features multimedia and interactive elements including a 235° 3D Immersive Display System that takes visitors inside a nuclear reactor.

### **About City University Low Carbon Energy Education Center:**

Established in 2017, CLP Low Carbon Energy Education Centre aims to bring the public an in-depth, multifaceted discussion on important energy issues, such as climate change, low carbon energy and sustainable development of the society.
