

Professional Certificate in Smart Supply Chain Management and Cold Chain Practices

智能供應鏈管理和冷鏈實踐專業證書

The course is jointly offered by PolyU SPEED and The Institute of Purchasing & Supply of Hong Kong (IPSHK), and supported by The British Standards Institution (BSI).

The Global Cold Chain Logistics market is estimated to reach USD\$386 billion by 2024. There is a high demand for industrial specialists in managing cold chain logistics service. This comprehensive course will equip participants with the most up-to-date industrial knowledge and technology application in cold chain logistics service management and supply chain.

The course will cover:

Module 1 – International Supply Chain Management

Module 2 – Current Issues for Cold Chain Logistics

Module 3 – Quality Assurance/Standard in Cold Chain
(Equivalent to BSI ISO23412:2020 Implementation Training)

Module 4 – Smart Logistics and Digitalization

Module 5 – Contract Management in Supply Chain

Module 6 – Supply Chain Innovations and Technologies

The course provides participants with an understanding of the basic concepts and functions involved in cold storage infrastructure design and establishment, process management of developing cold store, system and layout for different cold chain goods, application of cold store building materials for different specifications, and legal, safety, hygiene requirements of cold store in Hong Kong. Participants will understand the concepts of digitalization, supply chain innovation as well as “end-to-end solutions” and apply them in a dynamic cold chain environment.
